40–55% reduction in manual overhead | **200%** revenue collection increase | **200+** dashboards & datamart views built

Core Competencies

Global Operations Strategy · Revenue Operations (RevOps) · OKR / GTM Leadership · P&L Management · Business Transformation · AI & Intelligent Automation · Generative AI / RAG / LLM · Predictive Analytics · NetSuite O2C · ERP Implementation · SaaS Operations · Resource Management (800+ FTEs) · Enterprise BI & Datamart Design · Power BI / Sisense / Superset / Redash · ClickHouse / PostgreSQL · ETL & Data Pipelines · Cross-Functional Leadership · Delivery Governance · Change Management · Control Tower Design · SLA Governance · KPI / OKR Frameworks · Executive Reporting · Agile / Scrum / SAFe · Security & Compliance (RBAC / SSO) · API Integrations · Workflow Automation · Pre-Sales & Demo Leadership · Gartner / Forrester Contributions

Professional Experience

Senior Manager — Global Operations & Business Technology · BusinessNext · Noida, India Feb 2016 – Present (9 yrs)

↑ *Manager, Operations & Biz-Tech* 2019 – 2022
↑ *Lead Consultant, Operations* 2017 – 2019
↑ *Senior Consultant* Feb 2016 – 2017

Progressed through 4 roles to current Senior Manager scope — 3 direct reports, team of 12 — owning enterprise Operations & Technology for Sales, Revenue, Delivery, Finance, IT, and Support across 1,500+ global users. OKR Pillar Owner (GTM + Agentic AI) in FY26.

- **GTM OKR Ownership (FY26):** Appointed OKR Pillar Owner for GTM (\$101M target, 40% profitable growth) and Agentic AI Pillar Owner — overseeing Master Demo, KnowledgeBot, and OEG Bot; contributing to NPS improvement target of +52 points.
- **Global Delivery Governance (1,518 FTEs, 0 Breaches):** Governing 1,518+ FTEs across 116 BFSI accounts with 100% uptime on critical accounts and zero SLA breaches in Q1 FY26 — underpinned by a mature OS patching and escalation governance framework.
- **Revenue Governance (\$274M+ Platform):** Oversee \$274M+ CRM platform revenue across 116 BFSI accounts — unlocking \$3.2M additional revenue, managing \$33M loan disbursement portfolio, and correcting \$460K in OLI variances (FY25).
- **RevOps Pipeline (12 Modules):** Launched 12-module RevOps pipeline (SDR, MEDDIC Scoring, ARR Automation, Account 360, Revenue Scorecard — all LIVE); DataMart scaled to 20+ tables with 87% data compression (CSV→Parquet).
- **NetSuite O2C & ERP Automation (4,319 POs):** Orchestrated NetSuite O2C multi-MVP — automating 4,319 POs, hardening 7-day timesheet cutoff, and enabling real-time revenue grid distribution; improved revenue accuracy by 25% and cut reconciliation cycles by 40%.
- **Resource Management System (800+ FTEs):** Transformed resource planning by engineering RMG for 800+ delivery FTEs — scaling utilization visibility from 35% to 60%, cutting planning conflicts by 35%, enabling real-time capacity decisions globally.

- **Enterprise BI & Intelligence (200+ Dashboards):** Consolidated enterprise intelligence into 200+ dashboards and datamart views (Power BI, Sisense, Superset, Redash, ClickHouse + PostgreSQL) — compressing C-suite decision latency from days to minutes.
- **Platform & Data Engineering:** Executed MSSQL → PostgreSQL migration — 49 items, 0 defects, Gold 8 certified; cleared 219 Finance CRs; managed \$686K annual PO revenue lock/unlock; scaled CRM to 1,300 concurrent users and 31,670 daily leads with zero degradation.
- **Agentic AI Products — KnowledgeBot & CLMOCR:** Pioneered KnowledgeBot (RAG, Ollama + Llama 3 8B–70B, folder RBAC, streaming API) — 95% retrieval accuracy, 70% faster knowledge access; and CLMOCR (computer vision/OCR for contract validation) — improving leakage detection by 35%.
- **Pre-Sales, Awards & Governance:** Front-ended 100+ strategic BFSI demos; contributed to Gartner MQ 2018 and Asian Banker Technology Award; established enterprise support governance (RACI, escalation matrix, RCA, SOP, steering committee) processing 10,000+ tickets/year.

Business Intelligence Consultant · **Foodpanda India** · Gurgaon, India

Sep 2015 – Jan 2016

Built BI infrastructure and governance systems enabling daily operational decisions across 100+ cities for one of India's fastest-scaling food delivery platforms.

- **O2C Re-engineering (200% Revenue Uplift):** Re-engineered end-to-end O2C process — tightened merchant compliance and reconciliation cycles, delivering a 200% increase in revenue collection across national marketplace operations.
- **BI Dashboards & Automation:** Deployed 20+ Sisense real-time dashboards — boosting decision accuracy by 25%, enabling same-day issue detection; reduced manual reconciliation by 60% through automated data pipelines.
- **Operational Intelligence:** Enabled 2x faster operational failure detection across 100+ cities — reducing revenue leakage by 35% and accelerating resource reallocation.

Quality & Delivery Lead · **Center for Development of Advanced Computing (CDAC)** · Noida, India Jul 2011 – Apr 2013

Dual QA–BA role across multiple government technology product streams.

- Achieved 100% on-time delivery across all product streams — cut risk delays by 25% through adaptive change-control frameworks; improved system effectiveness by 25%.

Systems Engineer — Agile QA & Business Analyst · **Infosys Technologies Limited** · Hyderabad, India Oct 2009 – Jul 2011

Dual QA–BA role supporting Agile development for Horizon Healthcare database applications.

- Ran full Agile test cycles (smoke, integration, functional, UAT) — improved user satisfaction by 20%; bridged engineering–business gaps as junior BA.
